

Natja Wunsch

AUSTRALIA

Natja Wunsch received her Advanced Diploma of Yoga Teaching from the Australian Yoga Academy in July 2010. She studied Kids Yoga Therapy with Zenergy in March 2012 right after being diagnosed with breast cancer. Almost straight after treatment she started Yoga after breast cancer with Annette Loudon in 2 workshops and distant study to complete with certificate.

A second round of breast cancer and further self-study through different treatment made her wish to help and work with others after cancer even stronger. Natja added Lymphatic Yoga with Annette in April 2017 as it is a vital part for cancer recovery. She works with people in and after cancer in private as well as group settings.
